

**10th Anniversary
NIBEC Seminar & Lecture Series 2009-2010**

All lectures to take place in the NIBEC Seminar room on Wednesday afternoons at 4pm (unless stated otherwise).
Everyone is welcome to attend.

Institute of Biology

Institute of Materials Lectures

Royal Society of Chemistry Lectures

Invited Speaker

Institute of Physics

Date	Speaker	Title	Time
11 th Nov 2009	Tony Byrne	Nano for Clean Tech	4.00
Thurs 3 rd Dec 2009	Dr Ann Fearon,	"I do like a little bit of butter with my bread" RSC Guest Lecture, NIBEC	7.00pm
9 th Dec 2009	Prof. J Mc Laughlin	Developments on the Point Of Care Cross Border Project	4.00
6 th Jan 2009	Abhijit Ganguly Taiwan University	Properties of Graphene	4.00
13 th Jan 2010	Richard Homes	An Introduction to Microfluidics	4.00
20 th Jan 2009	Cristina Tuinea-Bobe	Advances in Flexible Conductors	4.00
27 th Jan 2010	Mike Petty, Loughborough Surface Analysis Ltd	Recent developments in surface analysis techniques	2.30
3 rd Feb 2010	Davide Mariotti	Silicon Nanoparticles for Photovoltaics	4.00
10 th Feb 2010	Dr Chris Ewels CNRS France	Shaping the Defective Nanoworld	4.00
17 th Feb 2010	Rob Hardeman Seagate Ltd	Seagate's approach to developing innovative magnetic storage devices	4.00
24 th Feb. 2010	Yury Rochev NUI Galway	Polymeric Drug Delivery Systems	4.00

Internal presentations will normally last around 20 min with 5 min for questions.

All staff and students are expected to attend.

Any changes to the programme will be posted on the notice board in NIBEC and on NRI Website.

Date	Speaker	Title	Time
3 rd March 2010	Joanne Manson	Bioresorbable polymers for targeted drug delivery	4.00
10 th March 2010		Annual IOM/NIBES lecture to be confirmed	4.00
24 th March 2010	Lindsay Charters	Raman spectroscopy for characterising cell response	4.00
14 th April 2010	Raechelle D'Sa	Grafting to Polymer Surfaces to control the Biological Response	4.00
21 st April 2010	Mura McCaffery	To be confirmed	4.00
5 th May 2010	Shika Wadhwa	TiO ₂ Nanostructures	4.00
To be confirmed	Brian McCraith NCSR at DCU	Recent developments at the National Centre for Sensor Research	4.00
19 th May 2010	Alan Brown	Bioreactors	4.00
26 th May 2010	Peter O'Hare	Cell biology methods for determining the biological responses of surfaces	4.00
2 nd June 2010	Ciaran Fullerton	Microplasmas and Cell-Surface interactions	4.00
9 th June 2010	Pradeep Yadav	To Be Confirmed	4.00
16 th June 2010	Navneet Sion	Carbon nanostructures for fuel cell electrode applications	4.00
30 th June 2010	Cormac Flynn	Plasma modification of Polymer Surfaces	4.00
7 th July 2010	Emma Magee	Biological responses to light activated metal oxide surfaces	4.00

Internal presentations will normally last around 20 min with 5 min for questions.

All staff and students are expected to attend.

Any changes to the programme will be posted on the notice board in NIBEC and on NRI Website.
